The season got off to a great start when on a spectacularly beautiful June day and under the expert guidance of boom man "Bob" we moved over our new building. After you all responded so well to our "Guest Survey" last year we knew we needed to make a few changes and the new building addressed all those needs. It boasts a spacious new kitchen and dining room so the cooks had lots of room to prepare the great food this summer, three new guest rooms, 2 bathrooms and staff accommodations and of course the "Deck" where many delicious barbecues were held, many glasses raised and many fish stories told during what would turn out to be one of the best summer weather wise and fish wise we can recall!!!! It was great to see our guests so happy!! The only thing missing was the Gift Shop which we will have waiting for you next year.

It was wonderful to welcome friends back we hadn't seen for a while

GREAT SEASON 2006!!!

and of course we were very happy to see our good friends that come every year. The young people amaze us as they just get brighter and more talented and still love to fish!!!

The amazing beauty of this business is introducing people to our location and fishing for the first time and we were blessed with many of those people this year. It is such a joy when we heard one gentleman who came with a corporate group say "I am not a fishing person, have never been one but nevertheless was looking forward to seeing this area and being with the group. Now I am completely blown away, this trip was so much fun and will truly go down as one of the most memorable of my life. I am now a fishing person!!" Not to mention he caught two Tyee!!!! Thanks again, Lindsay!!

People arrived by
**PLANES, BOATS,
TRAINS AND
AUTOMOBILES** and

everyone enjoyed their methods of arrival, with the exception of one group who suffered a minor delay at the hands of a local taxi company. As we loaded vehicles with their fish and bags and headed out so they could meet their plane along came the driver apparently lost in the beauty of the Tree to Sea Drive!!!

The additional docking space at the Lodge was appreciated by the "BYOB'ers" who found they had lots of room for moorage and all commented that there was nothing better than just waking up and walking out to your boat. .

Saving fuel and time to the fishing grounds was a huge bonus for everyone and the luxury of being able to head back to the lodge for a leisurely afternoon on the deck and then take in the evening bite was enjoyed by many.

Of course we were all just so surprised with a great young man from Japan who turned out to be everyone's friend as well as a great Sushi chef, Masa Osada. Masa has four years experience as a fishing guide in Northern Japan and was more than happy to share his knowledge with us. There were many groups who got the benefit of having their catch prepared for them on the deck, as no one can like Masa. We have his best assurance he is coming back next year and we are certainly going to do all we can to make sure he does. We hear there are many new "Masa Moms" fighting over who gets him this Xmas.

Bill Otway, President, British Columbia Sportfishing Defence Alliance, Richard Cole, Roger and Tom Bird....A Great Mid-Sept Catch.....September is a beautiful month at Ceepeecee

Masa with a real bright catch

NATURE PUT ON ANOTHER MAJESTIC SHOW FOR US IN 2006 BE SURE TO CHECK OUT THE UPDATED PICTURES ON THE WEBSITE SOON!!

The Fishing Report 2006.....

Fishing was quite exceptional in 2006, with nearly all guests catching the fish they need for the winter months ahead.

2006 was the best year we have ever experienced for Chinook and Halibut. Fishing began late June and continued through September. Weather was an added bonus allowing us much more offshore time throughout the summer.

We kept St. Jean's busy all summer long as our guests enjoy the variety of processed fish offered by the cannery and the convenience of the drop off points along the way home.

Cut plug herring is still my preference and I found we got our larger fish on this bait. Certainly the anchovy with flasher on a five foot lead was deadly. We found when fishing off shore bait is not needed and we were catching a variety of fish on spoons and hoochies.

ROGER'S REEL TIP

When putting away your salt water fishing tackle be certain to get all the salt off your equipment. Spray down with a light oil to protect over the winter months.

A good place to store your tackle is in a dark, dry area to avoid any corrosion and to prevent ultra-violet light on your lines.
